Half an hour later, the correspondent with a party of French officers watched the battle from the neighboring hills.

(By Evening Herald Special Wire.)
Washington, Nov. 23.—Representatives of the Associated Advertising Clubs of the World appeared today before the federal trade commission to urge the commission to take jurisdiction over dishonest advertising as unfair competition within the meaning of the federal trade law.

"We feel we are a natural ally of the commission with our 14,000 members embracing fourteen methods of advertising," said Herbert S. Houston, president of the clubs.

"In addition to our national vigilance committee we have in each state separate vigilance committees, and they come in contact with many interstate cases which we think might well be laid by us before this commission."

ATTENDANCE OF TEACHERS IS LARGEST IN RECORD OF N. M. E. A. TODAY

Secretary Wagner Announces at Opening of Afternoon Session Former Attendance Marks Have Been Distanced.

(By Evening Herald Special Wire.)
Albuquerque, Nov. 23.—The largest attendance of teachers from outside of Bernalillo county in the history of the New Mexico Educational association is present at this convention today, according to the announcement of Secretary J. H. Wagner at the opening of this afternoon's general session in the national guard armory.

Fifteen hundred teachers and interested attendants were seated in the armory when the secretary's statement was made and a wave of hearty applause greeted it.

As a further contribution to the complete success of the association's annual convention, the attendance of teachers from both Taos and Rio Arriba counties arrived this morning. The superintendents of these two counties had refused to come to the convention or to encourage teachers under them to attend. But the teachers in considerable numbers have come on their own account, and the loss in attendance which had been feared, has been largely discounted.

Ballooning on the place of meeting and for next year's officers began this morning and will close promptly at 12:30 noon tomorrow. All teachers are urged to vote before the noon hour, if possible, so as to avoid a rush at the close.

It became apparent this morning that the sentiment in favor of bringing next year's convention back to Albuquerque is very strong and that Santa Fe wins at all it will be by a very narrow margin.

Unusual interest attaches to tonight's general session not only because of the strong set program but because it has been freely rumored that State Superintendent Alvan M. White, who is one of the principal speakers, will take occasion to reply to statements made in the address of President J. H. Vaughan last night and to which Mr. White is understood to take exception, as being unduly critical of the work of the department of education under his administration.

The matter caused some discussion in the meeting of the county school superintendents' section this morning where a vigorous defense of Mr. White's administration was voiced by several superintendents.

At the conclusion of his gratifying statement regarding attendance this afternoon Secretary Wagner presented to Miss Isabel L. Kellie, county school superintendent of Grant county, a handsome embroidered banner bearing the inscription, "Grant County, the Banner County, 1914," under the insignia of the N. M. E. A. Last year Grant county sent 60 teachers, every teacher in the county, to the convention, the delegation traveling an aggregate total of 35,302 miles and winning the banner offered for the county leading in attendance and mileage traveled. Mr. Wagner said that Grant county's record did much to enable the managers to secure this year's one-fare round trip railroad rates.

GOMPERS RETAINS FEDERATION CONTROL

In Spite of Bitter Attacks on His Policy Veteran Leader Is Re-elected Head of American Federation.

(By Evening Herald Special Wire.)
San Francisco, Nov. 23.—The delegates to the American Federation of Labor convention were scattered to their homes today. The final session last night was stormy and featured by a bitter verbal contest between President Samuel Gompers and John P. Fitzpatrick, president of the Illinois State Federation of Labor. The debate arose over a resolution, favored by Fitzpatrick, that the federation endorse legislative methods in securing a minor school law. After a four-hour debate the convention by a vote of 4,456 to 4,396 refused to endorse legislative methods favoring instead the use of economic pressure to obtain shorter hours.

The subject of military preparedness was debated at length and a resolution was adopted endorsing military preparedness in the public schools was finally voted down. A resolution, however, was adopted several days ago opposing a large standing army but favoring a small standing army to be supplemented by a citizen soldiery, "democratically organized and controlled."

By its action the convention opposed weakening the national economy's act, rejected a proposal to substitute industrial unionism for existing craft unionism; favored an eight-hour day for all government employees, better pay for postoffice clerks and the establishment of a bureau of safety; favored government ownership of telegraph lines and the creation of a non-partisan tariff commission.

The referendum election of officers of the federation was rejected. President Gompers and all other officers of the federation were re-elected. The next convention will be held at Baltimore.
